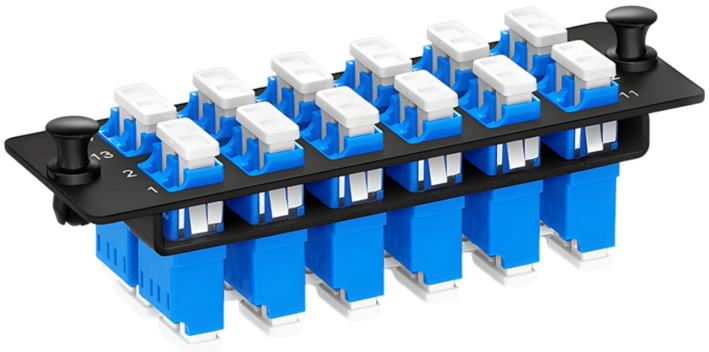
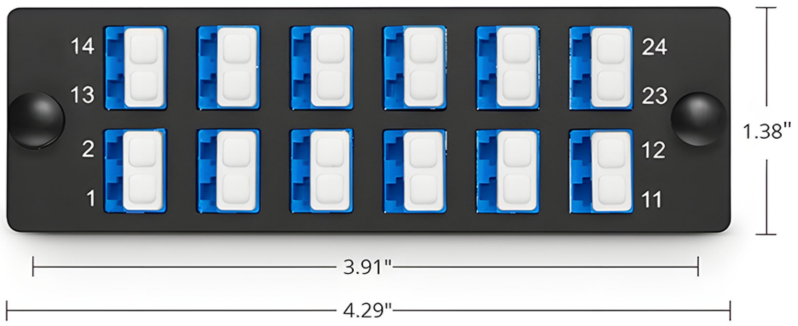
Fiber Adapter Panel

12 ports Fiber Adapter Panel,
Lording with 12 pcs LC/UPC Duplex Adapters,
Use for connecting 24 Fibers LC/UPC SM Simplex Fiber Optic Pigtails



12 ports Fiber Adapter Panel Drawing



Specification:

P/N	ZC-12P12DUULC
Material of Plate	Steel, Powder-coated Black
Material of Sleeve	Zirconia Ceramic
Durability	≤500 mating cycles
Enclosure Type	19" Rack Mountable
Installation	Standard EIA 19" Rack
Compliant	TIA/EIA-568-C.3
Connection Port	12 pcs LC/UPC Duplex Adapters
Dimensions (HxW)	1.38''x4.29'' (35x109mm)
Application	Fiber optical systems
Brand	HELLOSIGNAL® OR OEM
MOQ	100pcs

Fiber Adapter Panel

Features:

- Standard size, light weight and reasonable structure
- Made of cold-rolling steel, static spreading-plastic, small dimension and exquisite and easy for operation
- Suitable for ribbon and single fiber
- Various panel plate to fit different adapter interface
- Compact design for space saving
- Easy for management and operation
- Unique structure, reasonable layout, and has adequate room for operation
- Tool-less snap in installation for easier moves, adds and changes
- For laser optimized multimode and singlemode applications
- Meet or exceed TIA/EIA-568-C.3 requirements
- Assures flexibility and ease of network deployment and moves,adds,and changes

Application:

- Fiber Adapter Panel pre-loaded with fiber adapters that provides a means to connect backbone-to-backbone or backbone-to-horizontal fiber cabling. Used for fusion splicing application or pre-terminated Plug-n-Play cabling system, it provides a more stable, compact solution for your network.
- In the data center, the main distribution area (MDA) has two main optical cables connected to four optical fiber distribution panels, forming two main optical fiber links.Two of the optical fiber wiring panels are located in the main wiring area (MDA) to realize the connection between devices in the main wiring area, while the others are realized through the optical fiber jumper.
- Fiber Adapter Panel snap quickly into the enclosures for fiber optic network applications or connection in main distribution, horizontal distribution, and equipment distribution areas.
- Fiber Adapter Panel is a versatile solution in multiple sizes (1U/2U/4U) and styles for building backbones, data centers and enterprise applications.
- Provides a complete system solution for connectivity
- Other applications in Fiber optical systems

Packing

To better ensure the safety of your goods, professional, environmentally friendly, convenient and efficient packaging services will be provided.
